## Building America's Future Launches Stimulus-Watch Webpage

Washington, DC – Today Building America's Future (BAF), a bipartisan and national infrastructure coalition, launched a stimulus-watch webpage on its main website: [www.investininfrastructure.org/stimulus](http://www.investininfrastructure.org/stimulus). The portal links to each state's stimulus/economic recovery website, as well as related local news.

"Our portal will serve as a one-stop-shop to track how elected officials are using stimulus funds to improve local infrastructure," said Polly Trottenberg, executive director for Building America's Future. "We applaud the states, cities and agencies that have created websites to track every dollar of the stimulus. The majority of Americans support infrastructure investment, and they rightly deserve a guarantee that all funding will be used to increase our safety and quality of life and help create jobs and stimulate the economy."

###

Building America's Future ([www.InvestInInfrastructure.org](http://www.InvestInInfrastructure.org)) is a bipartisan and national organization dedicated to bringing about a new era of U.S. investment in infrastructure that enhances our nation's prosperity and quality of life. Founded in January 2008 by Governor Edward Rendell of Pennsylvania, Governor Arnold Schwarzenegger of California, and Mayor Michael Bloomberg of New York, BAF boasts a politically and regionally diverse membership of state and local elected officials from across the nation. BAF seeks to advance a new national vision for infrastructure investment that strengthens our cities and rural communities, and focuses on economic growth and global competitiveness, creation of economic opportunity for all Americans, and environmental sustainability. In addition, BAF embraces a wide definition of infrastructure - from roads and bridges to water and sewer systems, energy systems, transit, ports, levees, dams, schools and housing.
